

# Technical data sheet

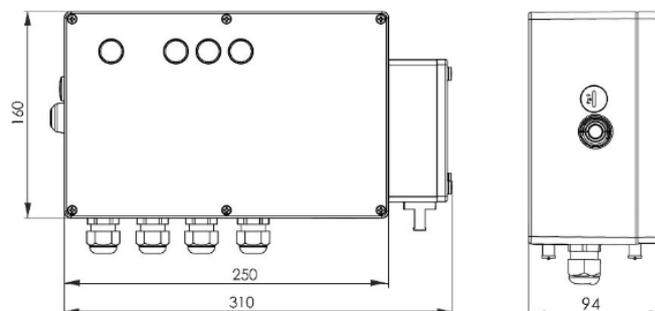

## Dosing pump DSP 9805-II

The powerful DSP 9805-II dosing pump doses electrically conductive media (e.g. liquid cleaning agents). This pump is used for washing systems with high water consumption.

<b>Performance data</b>	Flow rate:	0 ... 833 ml/min
	Duty cycle:	50%
	Max. Pressure:	0,5 bar
	Suction height:	1,8 m
<b>Configuration</b>	On the device:	Jumper and Potentiometer
<b>Electrical data</b>	Operating voltage:	230V AC
	Frequency:	50 / 60 Hz
	Input power:	50 VA
	Conductivity measurement:	conductive
	Protection class:	IP 65
<b>Mechanical data</b>	Dimensions:	310 x 187 x 94 mm
	Weight:	3,10 kg
	Connection hose:	8 mm (inner diameter)
<b>Ambient conditions</b>	Ambient temperature range:	+10 ... +45 °C
	Environmental stress:	Conforms to DIN EN 60068-2-38
